## A Partnership to Promote Excellence in Managing Digital Collections

- PUBLICATIONS
- DEVELOPMENT
- OUTREACH
- CONSULTANCY

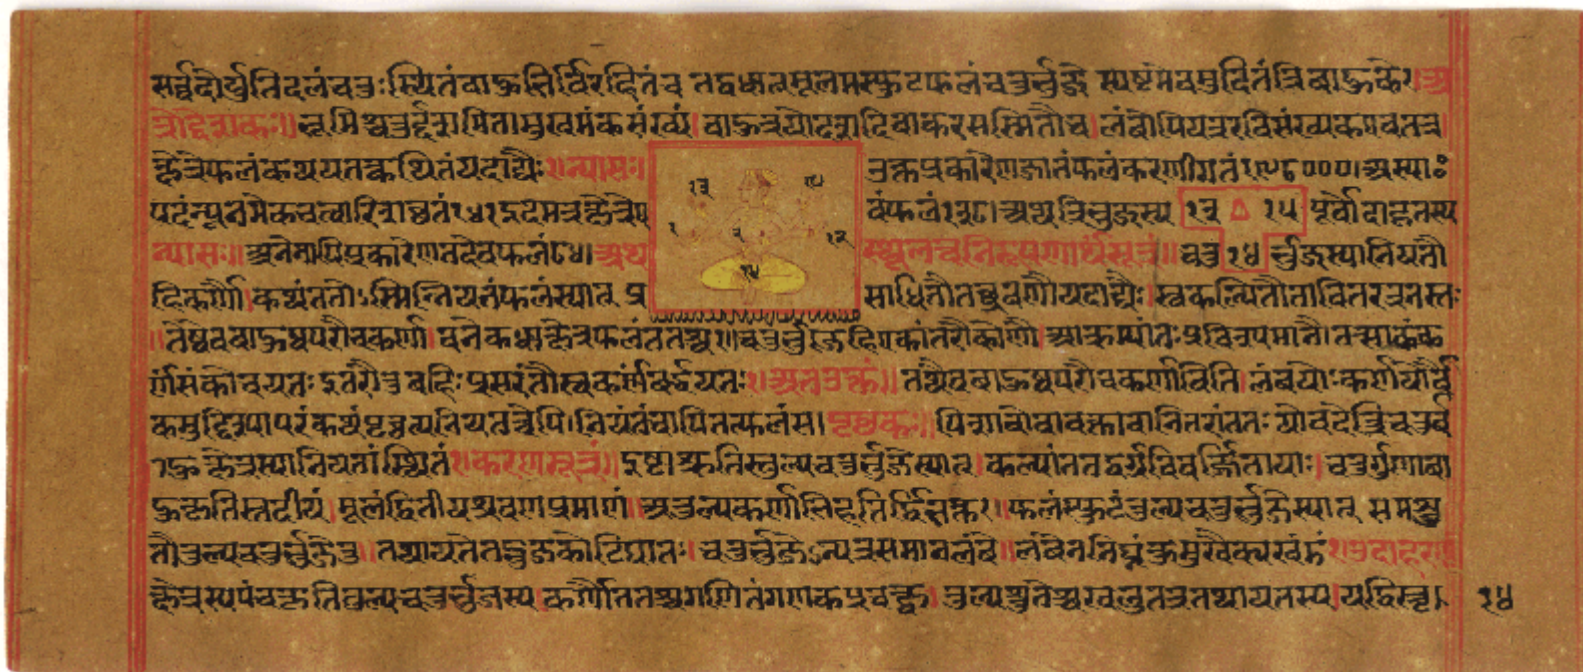

# The Age of Online Collections

- Digital images
- Sound recordings
- Video
- Metadata
- Data sets
- Text

# Online Collections

- Optimal access
- Optimal impact
- Digital curation/ preservation

## Call for participation

We ask ethnographic researchers to deposit textual, audio or video material with **PARADISEC** to ensure that it is discoverable and remains available into the future.

For more information please visit our website [paradisec.org.au](http://paradisec.org.au)

## Services offered

**PARADISEC** offers a number of services for cost recovery fees, including digitisation of audio material and training in ethnographic documentation techniques of recording, data management, and data linkage. Topics covered include:

- use and comparative advantages of types of recording equipment;
- lexicographic software;
- transcription and interlinearising of texts;
- linkage of digitised audio and transcripts;
- managing information as it is collected to facilitate later access;
- assessment and cataloguing of data collections.

Please contact us for further information on costing and availability of services.

## Contact

For further information, contact the project manager:  
Nick Thieberger  
[nicholas.thieberger@paradisec.org.au](mailto:nicholas.thieberger@paradisec.org.au)  
tel +61 3 8344 5185

Or contact our Administrator (Sydney Unit):  
Amanda Harris, [admin@paradisec.org.au](mailto:admin@paradisec.org.au)  
tel +61 2 9036 9557

See our home page at: [paradisec.org.au](http://paradisec.org.au)

**PARADISEC** is an Australian Research Council LIEF funded project sponsored by the University of Sydney, the University of Melbourne, the Australian National University and the University of New England. The project director is Linda Barwick: [linda.barwick@arts.usyd.edu.au](mailto:linda.barwick@arts.usyd.edu.au)
